WHILE LIFE
GOES ON
MAKE SURE
TO ENJOY
EVERY
MOMENT!

It is important for our daily comfort to be able to clean off the pen stains and other organic stains from our living spaces easily and without expending a lot of effort.

Weavers' innovative product CleanInk has been developed so that you can get rid of difficult stains like pen stains on upholstery fabric in just a few easy steps.

While life passes you by at its own speed you don't need to be worrying about little surprises like these; enjoy every moment with CleanInk.

How Does CleanInk Work?

Many methods have been developed to get stains off fabric surfaces easily.

But these methods may not achieve the same results when pen or other organic stains are involved.

The specially formulated chemicals that the CleanInk fabric holds prevent the stains from adhering to the fiber surface and allow the stains to be cleaned smoothly from the fabric surface with the help of water.

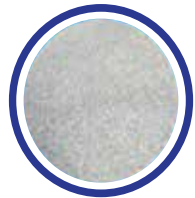

Get Rid of Stains in a Few Simple Steps!

- Coarsely clean off the substance that has been spilled on the fabric
- Apply water on the surface where the stain is by drops
- Then use a paper towel or soft touch cleaning rag on the product by moving the water over the stain in circular motions
- Repeat this several times until the stain is completely removed
